

StriveSafe fleet monitoring

We believe your employees should arrive safely.

That's why SAIF partnered with StriveSafe, the official telematics provider for the American Association of State Compensation Insurance Funds, to offer discounted rates for real-time vehicle monitoring services.

Real-time vehicle monitoring helps drivers and managers better understand driving patterns, improve fuel efficiency, and reduce the frequency of accidents.

Here's how StriveSafe can help:

Easily manage assets

Monitor drivers, vehicles, and remote workers in one integrated online dashboard.

Lower injury risk

StriveSafe customers have reduced:

- Motor vehicle accidents by up to 90%
- Speeding by 60-90%
- Hard-braking by an average of 27%
- Rapid acceleration by up to 47%

Cut maintenance costs

Get mileage reports, diagnostic codes, recall notifications, maintenance alerts, and more.

Improve efficiency

Curb aggressive driving habits, manage excessive idling, and reduce unauthorized use of vehicles.

To learn more, visit StriveSafe.com/saif or call 303.317.4813.

Cost savings

50%. That's how much SAIF policyholders save on StriveSafe services.
