

# Be a Flu Fighter

**Hans Washer** is your first line of defense to prevent germ spread.

Hans Washer

When he's not around, kick germs with **Andy Septic!**

Andy Septic

When you can't wash your hands:

- Use an alcohol-based (60% at least) hand sanitizer.
- Your hands should be free of debris.
- Put on enough sanitizer to cover them.
- Rub your hands together until dry (20+ seconds).
- Don't rinse or wipe off your hands before they dry.

You can stop the spread of germs by practicing the code:

**Vaccinate. Wash. Cover. If you're sick, stay home.**
