

SAIF is a not-for-profit, state-chartered workers' compensation company. We make workers' compensation insurance affordable and available to the employers of Oregon. And we strengthen the Oregon economy by helping to keep workers' compensation insurance costs low while keeping the workplace safe.

Since 1914, we've been taking care of injured workers, helping people get back to work, and keeping rates low by focusing on workplace safety. Together with our partners, we strive to make Oregon the safest and healthiest place to work.

A five-member board of directors appointed by the governor oversees the operation of SAIF and appoints the corporation's president and chief executive officer. Chip Terhune has held that position since July 2021.

While our corporate headquarters are in Salem, Oregon, many employees work remotely and enjoy flexible work options. We have regional offices in Bend, Eugene, Medford, North Bend, and Portland. SAIF provides safety, marketing, premium audit, claims management, legal, investigation, and return-to-work services to our customers.
