

# Why insure with SAIF?

You get **quality, expert service** and the **best value** for your dollar.

These are just a few of the reasons more than half of all Oregon employers choose SAIF, and why they keep coming back, year after year.

## **Claim management**

Our claim management specialists offer experience and expertise in compensability and disability management, medical bill auditing, managed care, legal services, return-to-work, and more.

## **Safety and health**

Our safety and health program is the largest in Oregon because we're serious about our vision to make this the safest and healthiest place to work. It's staffed by trained safety management consultants around the state who know that the best way to control claim costs is to prevent work injuries. And they believe the best way to do that is through Total Worker Health—integrating workplace safety and personal wellness to reduce the number and severity of injuries.

## **Local service**

Our teams of workers' comp professionals are located in regional offices throughout the state to better serve our policyholders.

## **Employer training**

When you select SAIF as your insurance carrier, we'll help you fine-tune your workers' compensation program to make sure you get the most value for your premium dollar. Our regional and online trainings provide important information about topics such as safety laws and regulations, reimbursement programs, and other issues relevant to workers' compensation and workplace safety and health.

## **Online tools**

Our suite of online tools allows policyholders password-protected access to policy and claim information, claim reporting forms, printable certificates of insurance, payroll reporting, premium payment, safety and health guides, and other tools to assist our policyholders in managing their workers' compensation program.

## **The SAIF advantage**

For over 100 years, SAIF has made workers' compensation available and affordable for Oregon businesses. By maintaining adequate surplus and reserves, we guarantee we'll remain a financially secure company capable of meeting the needs of our customers and their employees.
