

More Oregon contractors choose SAIF than any other workers' compensation carrier in the state.

Workers' compensation issues impact the construction industry more than any other, and SAIF is committed to helping construction companies create safer, healthier, and more productive workplaces. And that benefits workers, too—they go home to their families safe and healthy every day. This may be why more than 71% of the state's contractors insure their businesses through SAIF.

Choose the market leader in workers' compensation

- Our experienced claims adjusters excel at managing construction claims.
- Our return-to-work consultants understand the unique needs of construction contractors.
- Safety management consultants are available on staff and through group programs with Associated General Contractors and the Home Builders Association.
- Our industry-specific safety and health guides are available in print, video, and

online to all our customers, and we also provide industry-specific resources and guidelines for hiring and training employees.

- Our website offers on-demand policy and claims information, certificates of insurance, and online claims reporting.
- Our employment risk management resources provide guidance in areas such as proper hiring practices, human resource issues, and drug and alcohol testing.

The SAIF advantage

SAIF is the largest insurance carrier for Oregon's construction industry, and our consultants provide access to an array of resources and data to help employers more effectively address safety issues. We offer group programs with Associated General Contractors, National Electrical Contractors Association, Oregon Concrete and Aggregate Producers, Independent Electrical Contractors, and the Home Builders Association.
