

HR resources for your business

These resources make sense of complicated HR issues.

Strong HR practices are the foundation of an effective safety and health program. We have learned from our policyholders that HR policies and processes can become quickly outdated, complicating every day operations and impacting businesses' ability to focus on keeping their workforce safe. Finding a reliable resource for HR basics can be expensive and time consuming.

When it comes to HR for your business, SAIF wants you to be in the know. So we've partnered with Barran Liebman Attorneys to offer you clear and succinct resources that will help you better understand a broad spectrum of HR topics, from recruiting to performance conversations to policy development.

Our eLearning modules, short videos, and downloadable materials, created by Barran Liebman Attorneys, allow you to learn about common HR topics without having to attend an in-person training or pick up a phone. Best of all—the resources are free and as a SAIF policyholder, you have easy access to HR checklists, templates, forms and supplemental materials, which can be downloaded for future reference.

These resources cover the following topics:

- Recruiting
- Applications
- Interviews
- Coaching and performance
- Rules and procedures
- Incident documentation
- Policy and handbook revisions
- Working remotely
- Social media in the workplace
- Violence free workplace training
- Workplace harassment policies
- I-9 compliance

Questions? Visit saif.com/hr for more information, reach out to your safety management consultant, or call 877.242.5211.
