CIS and SAIF

saif
Work. Life. Oregon.

Partnering to provide the best coverage for Oregon's cities and counties — and improve worker safety and health

The basics

We all know that cities and counties face some of the most difficult workplace safety challenges. To create additional value and help protect the employees of the more than 260 cities and counties in Oregon, SAIF and CIS have joined forces to better serve you. Together, we are creating a sustainable workers' comp program for all Oregon cities and counties that wish to participate.

Membership in the CIS servicing group will be available to all Oregon cities and counties who are insured with SAIF for workers' compensation and are members of CIS (and in good standing with AOC or LOC).

Benefits specific to this program

- **CIS multiline discount |** A 5% discount on the CIS liability and property insurance (three percent if the member only has liability insurance with CIS).
- **Group discount |** CIS members in good standing that meet the SAIF underwriting and eligibility standards may qualify for an additional discount on their workers' comp policy.
- **Global settlements |** CIS and SAIF will coordinate efforts to seek full and final resolution of member disputes that involve workers' comp claims covered by SAIF and employment liability claims insured by CIS under certain circumstances.
- **Training |** Members get access to both the SAIF and CIS online training systems, which include the latest advice on ergonomics and other safety and health topics.
- **CIS OSHA 300 reporting |** CIS will aggregate and organize loss data to help the member meet the OSHA 300, 300A, and 301 reporting and archiving requirements.
- **Rapid Care |** CIS pays for all CIS members who have coverage with SAIF to have access to Rapid Care, which is a nurse hotline and claim intake service.
- **Additional liability coverage |** In accordance with the terms in the CIS liability coverage agreement, an additional $2 million in employer liability coverage will be added to the CIS liability policy.
- CIS has specialized expertise in human resources, police patrol, and jails — as well as regional risk management consultants who are experts in workers' comp, employee safety, and general liability.
