

## More Oregon loggers **choose SAIF** than any other **workers' compensation** carrier in the state.

It's no surprise that logging is hazardous work and workers' comp issues have an impact on the industry. SAIF is committed to helping logging companies create safer, healthier, and more productive workplaces so that workers go home to their families safe every day. This may be why more than 98% of Oregon logging companies (in the voluntary market) insure their businesses through SAIF.

### Choose the market leader in workers' compensation

- Our experienced claims adjusters excel at managing logging claims.
- Safety management and return-to-work consultants, familiar with the needs of the logging industry, are available on staff and through our group program with Associated Oregon Loggers.

- Our safety and health guides for logging are available in print, video, and online to all our customers.
- Our website offers on-demand policy and claim information, certificates of insurance, and online claim reporting.
- Our human resources materials give you guidance in areas such as hiring practices, drug and alcohol testing, and employee relations.

### The SAIF advantage

SAIF is the largest insurance carrier for Oregon's logging industry, and our consultants provide access to an array of resources and data to help employers more effectively address safety issues. We offer group programs with Associated Oregon Loggers and Gossard & Associates.
