

Driver safety program checklist

This checklist was developed to provide employers with important elements to be included in a driver safety program. Whether your employees are driving for deliveries, or to travel from one location to another, driving any type of motor vehicle involves a high level of risk. Employers that develop driver safety programs with these elements can greatly reduce the risk of motor vehicle crashes and minimize injuries.

<input type="checkbox"/>	Written driver safety policy
<input type="checkbox"/>	Seat belts – Ensure all drivers and passengers are using seatbelts
<input type="checkbox"/>	Impaired-free driving - Prohibit workers from operating a vehicle while impaired (substances, fatigue, and aggression). Include language to not schedule drivers for irregular hours or excessive overtime
<input type="checkbox"/>	Distraction-free driving - Ban the use of cell phones and other electronic devices while driving, even hands-free
<input type="checkbox"/>	Courteous driving – Adopt a courteous driving policy that clearly outlines responsible driving behaviors
<input type="checkbox"/>	Organizational responsibilities – Define and communicate roles and responsibilities of leaders, supervisors, and workers clearly
<input type="checkbox"/>	Driver responsibilities – Clearly outline driver responsibilities including pretrip tasks, safe driving practices, and accident reporting
Notes:	

<input type="checkbox"/>	Vehicle selection process
<input type="checkbox"/>	Safety ratings – Buy vehicles that come with high safety ratings based on crash testing.
<input type="checkbox"/>	Safety features – Look for advanced safety features such as lane departure warning systems, collision warning systems, rear facing cameras, and adaptive cruise control
<input type="checkbox"/>	Driving conditions anticipated – Consider vehicle options based on location, weather, and roads traveled
<input type="checkbox"/>	Employee needs – Select design features that address task needs and offer adjustability

<input type="checkbox"/>	Driver selection, orientation, and training
<input type="checkbox"/>	Enroll in DMV’s automated reporting service or review DMV and background checks annually
<input type="checkbox"/>	Driver orientation of safe driving policy and procedures
<input type="checkbox"/>	Driver training upon hire
<input type="checkbox"/>	Ride-along driving assessment
<input type="checkbox"/>	Explain in-vehicle monitoring systems if present; focus on safety, not productivity
<input type="checkbox"/>	Provide refresher training after a collision or driver infraction

<input type="checkbox"/>	Emergency equipment
<input type="checkbox"/>	High-visibility vest
<input type="checkbox"/>	Traffic cones or triangles
<input type="checkbox"/>	Flares
<input type="checkbox"/>	Emergency escape tool (seatbelt cutter and window breaker)
<input type="checkbox"/>	Bottled water and food
<input type="checkbox"/>	Flashlight
<input type="checkbox"/>	Jumper cables
<input type="checkbox"/>	Ice scraper
<input type="checkbox"/>	Blanket
<input type="checkbox"/>	Maps
<input type="checkbox"/>	Lighter
<input type="checkbox"/>	Pen and paper
<input type="checkbox"/>	First-aid kit
<input type="checkbox"/>	Chains, snow tires, or traction devices (weather dependent)

<input type="checkbox"/>	Organizational accountability
<input type="checkbox"/>	Schedule ride-along driving assessment and coaching
<input type="checkbox"/>	Implement a telematics program
<input type="checkbox"/>	Conduct root-cause analysis of every incident
<input type="checkbox"/>	Review incidents and follow-up on corrections
<input type="checkbox"/>	Perform annual program management review
<input type="checkbox"/>	Promote positive reinforcements to improve driving behavior
<input type="checkbox"/>	Encourage discussion with employees that highlights challenges, opportunities, and successes
<input type="checkbox"/>	Avoid recognition for absence of collisions or vehicle damage

<input type="checkbox"/>	Vehicle inspection and maintenance
<input type="checkbox"/>	<p>Pretrip inspection</p> <ul style="list-style-type: none"> • Walk around - look behind and under for obstacles, people, or leaks • Tire pressure or damage • Look for damage to vehicle body or glass • Look in vehicle before entering • Ask yourself "Am I well rested and alert to be driving?" • Have navigation setup or your route planned in advanced (download map to devices for availability offline) • Ensure cell phone is off and silent
<input type="checkbox"/>	Verify that scheduled maintenance meets or exceeds manufacturer's recommendations
<input type="checkbox"/>	Ensure there is a method for reporting maintenance problems
<input type="checkbox"/>	Address any reported problems in a timely manner

<input type="checkbox"/>	Post-incident
<input type="checkbox"/>	What to do in the event of common roadside problems (animals, flat tire, snow, emergency, weather event, downed power line, flooding, fires)
<input type="checkbox"/>	Review Oregon Traffic Accident and Insurance Report to determine the appropriate information to collect
<input type="checkbox"/>	Company incident report and procedures
<input type="checkbox"/>	Communication expectation
<input type="checkbox"/>	Recordkeeping and documentation
